

PREMIUM S3

the first ironing system
for more practical ironing

CONSTANT PRESSURE

A constant pressure of 50 psi produces 211 quart of steam volume per minute – the result is professional ironing quality.

EASY FOLDING – PATENTED

Foldable board with six height-adjustment settings for all ironing requirements.

PERMANENT IRONING

Removable 1.3 quart reservoir – permanent ironing without waiting.

COMPACT STORAGE

Easy-to-move system thanks to its two pairs of integrated wheels and its reduced size of 7.87 in when stored.

DOUBLE VOLUME

Double volume of extra fine steam, for a lasting result leaving no damp traces.

SAFETY BOX

Iron safety storage box, to keep the still warm iron well protected.

AQUA FILTER

NEW – Scale filter – ordinary water can be used and the iron's service life is extended.

FAST HEATING TIME

Super fast heating time in five minutes for immediate use.
